Profile: Student in M1 Econometrics and Statistics and Magistère Economics, Data Science & Finance (Aix-Marseille University), I am training to model, forecast and quantify from economic and financial data. Operational from the first weeks: I know how to collect and clean data (Python, R, SQL and Excel), build a predictive model and deliver a dashboard with recommendations that can be used by the teams.

EDUCATION

M1 Econometrics and Statistics - Magistère Economics, Data Science & Finance <i>Aix-Marseille University - double degree (in progress)</i>	2026 - 2027
Professional Bachelor's Degree in Business Intelligence and Statistics (MDS) <i>Aix-Marseille University - Business Intelligence, Statistics and Big Data course</i>	2025 - 2026
Data Developer Professional License <i>University of N'Djamena</i>	2022 - 2023
Bachelor's Degree in General Mathematics <i>University of N'Djamena</i>	2017 - 2020
Baccalaureate series D (Scientific)	2017

TECHNICAL SKILLS

Languages	Python, R, SQL, SAS, Excel VBA
Statistics	Descriptive and inferential statistics, probability, linear algebra, time series (ARMA, ARIMA)
Machine Learning	Classification, Regression, XGBoost, Class Rebalancing (SMOTE)
Databases	MySQL, PostgreSQL, MongoDB (NoSQL)
Visualization - BI	Power BI, Excel dashboards, Matplotlib, Seaborn

PROFESSIONAL EXPERIENCE

Data Analyst - Internship : AUREVAL (U Express), Marseille 1st	May - Jul 2026
